Summary

Final-year Computer Science engineering student with hands-on experience in mobile and full-stack development. Skilled in building cross-platform applications using Flutter along with backend services using Node.js and REST APIs. Experienced in working with databases such as Supabase and Firebase and integrating real-time features, authentication systems, and cloud services. Interested in developing scalable applications and learning modern backend technologies.

Technical Skills

Programming Languages: C, Python, java, SQL

Backend: Node.js, REST APIs, JSON

Database & Cloud: Supabase, Firebase

Frontend: Flutter, Dart, Android Development (Java, XML)

Tools & Development Environment: Android Studio, VS Code, Git & GitHub, Jupyter Notebook

AI & API Integration: OpenAI API, Gemini API, Basic NLP Concepts

Experience

Mobile App Developer Intern

Farmseasy Tech Solution Private Limited | Hybrid

Oct 2025 – March 2026

- Working on Flutter-based mobile application development.
- Implementing UI screens and connecting them with backend APIs.
- Assisting in REST API integration and database connectivity.

Projects

CaseFlow – Police Case Management System (Flutter, Backend APIs, twilio)

Dec 2025

- Developed a digital case management application for Chikalthana Police Station, Sambhajinagar to streamline case handling and documentation.
- Implemented features for case tracking, status updates, and secure record maintenance to improve operational efficiency.
- GitHub- <https://github.com/aditi-nalawade8/CaseDesk.git>

Traffic Management App (Flutter, Dart, Supabase)

July 2025

- Handled the entire backend using Supabase Auth, Database design, Realtime updates, and Storage for challan proofs.
- Built backend logic for challan creation, role-based access (Citizen/Police/Admin), approvals, and status tracking with queries.
- GitHub- https://github.com/aditi-nalawade8/CSN_Traffic.git

GigConnect – Gig Worker Marketplace Platform (Flutter, Node.js, Express.js, MongoDB, Socket.io)

Dec 2025

- Built a gig service marketplace application where customers can post jobs and workers can find and accept nearby work opportunities.
- Developed features like user profiles, job posting, job applications, and real-time communication between workers and customers.
- GitHub- <https://github.com/Adiipatil29/GigConnect.git>

Education

Deogiri Institute of Engineering and Management Studies

Bachelor of Technology in Computer Science and Engineering

- Current CGPA: 8.04 / 10.0

Chhatrapati Sambhajinagar, Maharashtra

Expected May 2026

Achievements & Certifications

- Galactic Problem Solver**, NASA Space Apps Challenge – October 2024
- Micro-certification**, ServiceNow – April 16 2025
- DIPEX 2025**, Finalist – COEP Pune Innovation Exhibition
